Ifekan-Shango Simon, MD

February 17, 2022

Dear Board of Medical Examiners,

I am requesting your vote to fill the At-Large Medical Board seat to aid in upholding the standards of the medical profession.

Medicine is a career admired by all. This admiration comes with a level of respect and trust which must not be taken for granted or be diminished. Such admiration continues because Medical boards commit to establish and maintain professional standards of practice. Our citizens expects every physician's fiduciary duty to uphold these standards and we must hold each other accountable. My 22 years of practice in South Carolina has primarily been in direct supervision of physicians at various stages in their careers including clinical education, peer review, and medical case committees. Board membership is a serious responsibility. Lobbying for options for individuals to retain and recovery licensure should be carefully balance with maintaining public trust. My approach is corrective action over punishment.

I request and appreciate your vote to serve in said capacity.

Sincerely,

I. Simon, MD
